Unaib Qaiser

OBJECTIVE

To utilize my coding skills and problem-solving abilities to design and implement effective software solutions that meet the requirements of the project, while consistently striving to improve my technical knowledge and abilities.

EDUCATION

Bachelors in Computer Science — *FUUAST*

2016-2020

- Major in Software Engineering
- 3.2 CGPA out of 4.0

PROJECT

Adventure Eye — *FYP*

Adventure Eye was made to organize and lead outdoor activities such as hiking, backpacking, and other outdoor adventures. The main aim of the application was to link an adventurer to an adventure club through a mobile application, so that they can view and book upcoming events.

Tech Stack

- Flutter framework of Dart language (FRONTEND)
- Google Firebase (BACKEND)

SKILLS

- HTML
- CSS
- Javascript
- React.js
- Flutter
- GIT
